General Information

Camping at Lake Weissensee means recreation at „Playground of Nature“ in the middle of a 76 km² large natural park. Unspoiled lake fronts, crystal clear water with drinking water quality, no through roads and an unique natural landscape. These are some reasons why the 11 km long lake stands out among others especially in these days. The warm water (up to 25°), the surrounding mountains and the mild stimulating climate of the climatic spa offer the perfect precondition for recreation and experiencing and enjoying the nature. Basic-WIFI free of charge.

The region Weissensee was honored with the EU price of Environment and Tourism in 1996 because of the sustainable efforts of the touristic development. In 2014 Lake Weissensee was Austria’s Nature Parc of the Year.
